Follow along

Navigate to the course website, link on moodle.
The “lab” column has our activities.
We will start one soon.
The “lab_slides” has these slides!

Lab goals

- Get additional hands on practice with the material!
- Help work through installation issues.

Assessments:

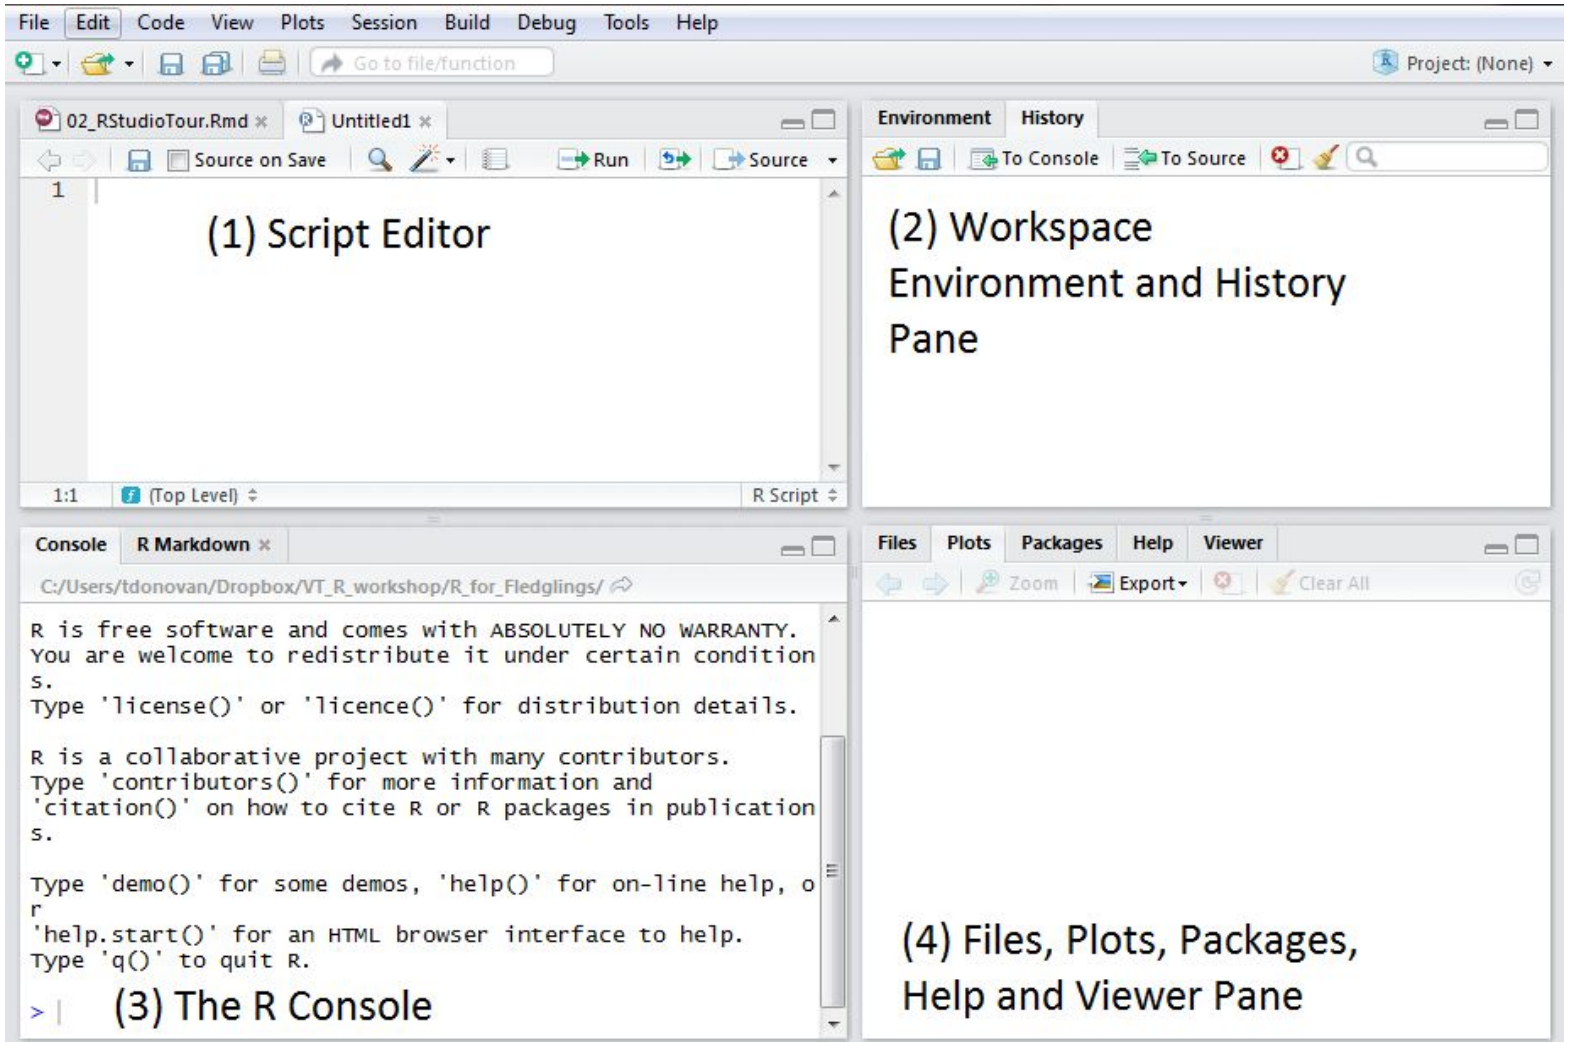

- Lab assignments graded for completion.
- Attendance taken.
- Proficiency tests: Short timed coding tests to demonstrate your mastery of the material.
  - Note: These are meant to be straightforward!

Goals for today

- Install R & Rstudio - Open up the lab for today on the course website
  - Installation Guide is there
  - Raise your hand when you are done or if you have questions!
- Brief Tour (if time)
